### **HEALTH CORNER HONEY**

Honey bees make honey from nectar of flowers. Many people use it as a natural sweetener. Honey is found in many flavors depending upon the source it gets collected from. It is one of the greatest gifts provided by nature. It is not just used for medicinal purposes as nutritional supplement but also in cosmetic products. Apart from the previously told properties it has antioxidant, antimicrobial and anti inflammatory properties. Honey is an instant energy source as it contains sugars, mainly fructose and glucose. Honey can be used as a good and healthy alternate as compared to sugar. Out of the multiple advantages of honey as per ayurveda honey can also be used in cough, inflammation and fever.
